

Food Service State Questionnaire Content

This is a list of the major topics covered in the state-level food service questionnaire. For more detailed information on the content of the study questionnaires, please visit the project web page at www.rti.org/shpps.

- the availability of school breakfast and lunch
- the variety of lunch entrees, side dishes, and milk choices
- the variety of entrees and a la carte foods
- state policies on junk foods
- the availability of brand-name fast foods in school cafeterias
- state assistance given to districts and schools to identify ways that food service staff might help teach students about nutrition and healthy eating
- staff development provided to district or school food service staff
- collaboration between state food service staff and other state agencies on food service projects
- credentials that district and school food service coordinators are required to have
